**Federal Aviation
Administration**

September 23, 2004

Attached are two new specifications to be added to Federal Aviation Administration (FAA) Draft Advisory Circular (AC) 150/5370-10B STANDARDS FOR SPECIFYING CONSTRUCTION OF AIRPORTS, Part VII. The current revision (AC 150/5370-10A) is undergoing a complete revision. Several draft documents consisting of individual Parts of the AC will be circulated for review, culminating with a revised AC at the end of 2004. Principal changes are noted by marks in the border of each page. Items included in this draft document are coal-tar seal coats.

This draft is available on the following FAA internet website:
<http://www.faa.gov/arp/publications/acs/draftacs.cfm>

Comments received no later than October 27, 2004 will be considered for inclusion in Part VII of the final advisory circular.

Sincerely,

A handwritten signature in black ink that reads "Rick Marinelli".

Rick Marinelli
Manager, Airport Engineering Division
