

## Industry Expectations for Tasks 6-9 Approval

1. Industry is committed to supporting the objectives of ATSRAC.
2. This effort should be conducted in the most efficient and effective way possible
3. Industry is concerned about clarity of the tasking statement as circulated and our ability to meet a November deadline.
4. Final draft tasking statement for each task should be distributed before April meeting (this draft should have already been accepted by appropriate FAA offices)
  - Needs to be concise
  - Needs clear description of deliverables
  - Needs description of task interdependencies
  - Recommend establishment of small group of implementers to clarify tasking statement
5. Tentatively identify working group chairs at 3/13 meeting.
6. Need clear understanding of relationship of tasks 1-5 output and statement of work for tasks 6-9
7. Clarify relationship to work of ARAC Electrical Systems Harmonization Working Group
